

Our environment...

The values of environmental responsibility are shared by the entire DOMAINE DE LARCHEY team.

We have therefore set up an **ecological charter** with a number of eco-responsible actions.

- ✓ Sorting of waste (cardboard, glass, batteries, light bulbs, green waste, plastic stoppers and corks)
- ✓ Exclusive use of glass bottles for the bar
- ✓ Compost
- ✓ Use of Eco-Label or naturals washing products
- ✓ Use of low-energy bulbs
- ✓ Responsible purchasing: domestic & food equipment

We invest in **equipment that reduces our environmental impact:**

- ✓ Solar panels
- ✓ Integrated purification system
- ✓ Geothermal heating

Chef Guillaume Germanaz's cuisine reflects a desire to reduce environmental impact :

- ✓ **Healthy cuisine** using **seasonal fruit and vegetables**
- ✓ 80% French suppliers and sourcing of **local producers**
